REVIEWING ROUTINES AFTER WINTER BREAK

January 8th, 2024

Let's chat about returning back to school after winter break!

When we think about returning back to school after break, we want to treat this week like it's the first week of school again and there are a few things we have to think about, with the two biggest ones being:

1. Relationships
2. Routines

First and foremost, your students haven't seen you or many of their friends / peers over the past few weeks, so they are going to have a LOT to say!

Make sure you build in time for them to chat and build those relationships again! But we also need to be intentional about our lesson plans. Don't be too worried about jumping into the content right away. Instead, let's choose intentional lessons that also incorporate team building and relationships.

As for routines. There are routines you had in 2023 that went well, but I am sure there are areas within your day where there was a lack of a routine. This is a fresh start for not only your students, but also you! Take this time to review any routines you want to keep in place and start fresh with any routines that need to be implemented.

For a deeper dive, be sure to join us on Monday, January 8th, for our [Manageable New Teacher Membership](#) monthly PD where we are focusing on [Reviewing Routines After Winter Break](#) plus snag some awesome freebies!

I can't wait to meet you next week!

XO - Kayla
